

TRADERS.

SOME RENDERED LARD is not always mean like moth used to make. It means any of any kind rendered by any Tulsa's packing plants. It may be all hog fat or it may be a part hog fat and the rest may be beef fat, mutton fat or any other fats or oils of any kind. It is easy to get TOO GRAY on low grade of the oil. It is some packing plant and how stand up with TEARS in our eyes and tell the DEAR people how much money you can lose for their DEAR interest.

There are also many grades of compound lard. We buy only pure foods and we make the prices as low as we can. We are here to stay and we do not aim to let a John D. lead us into a loss and put us out of business. We give 16 ounces to the pound. We can not compete with those who give short weights. Some merchants have gotten very wealthy by advertising low prices to BLUFF COMPETITORS and to draw fraude and then weigh short to make desired profits. If a shoe fits it ought to be worn. There is not one woman in every 50 that ever weighs her groceries, or meats, therefore she never knows what she really pays for same.

But others are beginning to investigate and to find out why some people have grown rich while they have still labor hard to make their meat and bread.

A mother should go to market each day and select the meats and groceries for her family. She should buy only the best and know that she gets the lowest prices and also know that she gets full weight. We do not ask sympathy. We ask you to look well to your own interest and when a Judas kisses you on the cheek and tells you of his GREAT wealth and how he aims to spend it for you and himself, do not be deceived, for if you will read between the lines you will plainly see that he means to use his money to put THE TRADERS out of business and after that is done he will raise prices to make back his losses.

What great wrong have we done that we should be put out of business? We will admit that we sell meats and groceries for less than others do who credit and deliver. But if we save this loss and expense and GIVE it to our CUSTOMERS is it any sin? Let those who ask credit help pay the debts of those who do not pay—and also let those who have their goods delivered pay the expense of the delivery—but why should those who pay cash help pay the debts of others?

Or why should those who deliver their own goods help pay the expenses to delivering goods to others? If we do not save your money we do not ask your trade. But if we have caused other merchants to make more reasonable prices than before we then ask you to stand by us now and help us to be able to still reduce prices. The more we sell the cheaper we can buy and the less the expenses on the dollar of the sale.

We believe now is a good time to buy sugar.

We use only the best corn fed steers for our beef. Why buy blue, tough junk beef when you can come to us and buy nice juicy corn fed beef for less money. You run no risk by trading with us, for if you are not satisfied we will pay back your money.
